Clinical Sites **Nurse Anesthesia**

Primary Clinical Sites

1. *Chippenham Hospital, Richmond, VA*

As one of the largest facilities in the nation's largest hospital system (HCA), Chippenham Hospital provides the full scope of healthcare services. They specialize in heart care at the Levinson Heart Hospital and emotional and mental health services through the Tucker Pavilion. The ER is also a state-authorized Level III trauma center and they offer Central Virginia's only Pediatric ER staffed 24/7 by pediatric-trained ER nurse and physician specialists.

2. *Johnston-Willis, Richmond, VA*

Johnston-Willis is the largest accredited Stroke Care Network in Central Virginia. They were the first hospital in the region to attain certification from The Joint Commission as a Primary Stroke Care Center. They have a unique suite of services in our Neuroscience and Gamma Knife Center— intraoperative magnetic resonance imaging (iMRI), Gamma Knife Perfexion® for brain surgery without incisions on previously inoperable tumors, and the Trilogy targeted radiation system—is the only one in the mid-Atlantic region.

3. *St. Francis, Midlothian, VA*

St. Francis Medical Center, is a state-of-the-art facility with 130 private rooms and a full spectrum of services. Completed in 2005, St. Francis Medical Center is a state-of-the-art facility offering the latest in digital technology, including patient rooms wired for the Internet. Our peaceful setting provides a restful and contemplative environment for patients, families, staff and the community. The Chapel, prayer gardens, fountains and walking paths are designed to enhance the spiritual aspects of healing, to fulfill our Mission of bringing people and communities to health and wholeness.

4. *Georgetown University Hospital, Washington, DC*

The Georgetown University Hospital is the first primary clinical site to which a Georgetown University Nurse Anesthesia student is assigned. The hospital performs over 15,000 surgical procedures annually. While at this site, students receive hands-on experience in all types of anesthetic techniques, including regional for cases in general, pediatric, plastics, ophthalmology, vascular, ambulatory, gynecologic, lithotripsy, ENT, orthopedics and neurosurgical anesthesia. In addition, students do a rotation through pain service and obstetric anesthesia. Clinical experiences provide the student with sufficient numbers to meet, and often exceed, the requirements of the Council on Certification of Nurse Anesthetist.

5. *Johns Hopkins Bayview Medical Center, Baltimore, MD*

Johns Hopkins Bayview, a full-service, Joint Commission-accredited academic medical center. Founded in 1773, it is one of the oldest, continuous health care institutions on the east coast. Part of the Johns Hopkins Health System, Johns Hopkins Bayview has more than 560 beds and is home to one of Maryland's most comprehensive neonatal intensive care units, a sleep disorders center, an area-wide trauma center, the state's only regional burn center and a wide variety of nationally-recognized post-acute care and geriatrics programs.

6. *Johns Hopkins University Hospital, Baltimore, MD*

For more than a century, The Johns Hopkins Hospital has had a tradition and mission of striving to lead the world in the diagnosis and treatment of disease and to train tomorrow's great physicians, nurses and scientists. Above all, they aim to provide the highest quality health care and service to all of their patients. The Johns Hopkins Hospital is globally acclaimed for its exceptional services and programs. For 19 consecutive years, it has topped *U.S. News & World Report's* "Honor Roll" in the magazine's annual ranking of America's Best Hospitals.

7. *Mary Washington Hospital, Fredericksburg, VA*

Located 50 miles from Georgetown University, Mary Washington Hospital is a primary site for two to four Georgetown University Nurse Anesthesia students. This large community hospital provides hands on experience in all types of anesthetic techniques, including regional for cases in general, cardiac, pediatric, plastics, ophthalmology, vascular, ambulatory, gynecologic, lithotripsy, ENT, orthopedics and neurosurgical anesthesia. In addition, students do a rotation through pain service and obstetric anesthesia. With over 14,500 surgical cases annually, the clinical experiences provide the student with sufficient numbers to meet, and often exceed, the requirements of the Council on Certification of Nurse Anesthetist. This site is also a rotational site for neurosurgical and cardiac anesthesia.

8. *Sinai Hospital of Baltimore, Baltimore, VA*

Located 50 miles from Georgetown University, Sinai Hospital of Baltimore is a primary site for two to four Georgetown University Nurse Anesthesia students. This large community hospital provides hands on experience in all types of anesthetic techniques, including regional for cases in general, pediatric, plastics, ophthalmology, vascular, ambulatory, gynecologic, lithotripsy, ENT, orthopedics and neurosurgical anesthesia. Students may have to rotate out for open-heart experience. In addition, students do a rotation through pain service and obstetric anesthesia. With over 11,750 surgical cases annually, the clinical experiences provide the student with sufficient numbers to meet, and often exceed, the requirements of the Council on Certification of Nurse Anesthetist.

9. *Washington Hospital Center , Washington, DC*

The Washington Hospital Center is a large, not-for-profit, private teaching facility serving the Washington DC, metropolitan area. The center has the area's only adult Burn Center, MedSTAR (a receiving center for critical medical and surgical emergencies) a state-of-the-art ambulatory cancer treatment center, and extensive multi-disciplinary surgical services.

Enrichment Clinical Sites

1. *INOVA Fairfax, Fairfax, VA*

Inova Fairfax Hospital is a 753-bed regional medical center serving the Washington, D.C. metro area. Inova Fairfax Hospital includes Northern Virginia's only Level 1 trauma center, for treating the most critically injured patients. Inova Fairfax Hospital is a teaching facility and partners with the medical schools of Georgetown and George Washington universities and the Medical College of Virginia.

2. *INOVA Fair Oaks, Fairfax, VA*

Inova Fair Oaks Hospital is a 160-bed advanced acute care community hospital serving Fairfax, Prince William and Loudoun counties. It is part of the Inova Health System, a not-for-profit health care system based in Northern Virginia.

3. *INOVA Mt. Vernon, Alexandria, VA*

Inova Mount Vernon Hospital is a 237-bed hospital offering patients convenience and state-of-the-art care in a community environment. This hospital sits on 26 acres of beautifully landscaped open space, where patients can find moments of serenity in our specially designed gardens. Inova Mount Vernon Hospital is home to the nationally recognized Inova Joint Replacement Center and Inova Rehabilitation Center. Both are ranked among the top orthopedic and rehabilitation programs in the country. It also houses the Wound Healing Center.

4. *University of Maryland Medical Center-R. Adams Cowley Shock Trauma Center, Baltimore, MD*

The Shock Trauma Center admits more than 5,300 patients each year, the majority of which are transported directly from the scene of injury. The injuries are a result of motor vehicle crashes, interpersonal violence (gun shot, stabbings and other assaults) and other types of injuries (recreational and industrial mishaps). In this required rotation, Georgetown Nurse Anesthesia students receive their training in trauma anesthesia for both acute injury and follow-up care.

5. *Union Memorial Hospital, Baltimore, MD*

Union Memorial Hospital is a not-for-profit, acute care teaching hospital with a strong emphasis on cardiac care, orthopedics and sports medicine. As one of the region's top specialty hospitals, Union Memorial has been caring for members of the community for more than 150 years. They are renowned for the Curtis National Hand Center, Harry & Jeanette Weinberg Heart Institute, Decker Orthopedic Institute and Union Memorial Sports Medicine. In addition, they offer a comprehensive range of inpatient and outpatient services including diabetes and endocrine center, eye surgery center, general surgery, oncology, thoracic surgery and vascular surgery.

6. *Veteran's Administration Medical Center, Washington, DC*

At the Washington DC Veteran's Medical Center, the Georgetown Nurse Anesthesia student receives training in a variety of surgical specialties including cardiac, vascular, urology, general, thoracic, orthopedic, plastics, ophthalmology, ENT and oral surgery. During this rotation, the student focuses on the anesthetic considerations of a population that tends to be elderly and have multi-system pathology.

Optional Rotation Site

1. *Northern Navajo Medical Center, Ship Rock, NM*

The Northern Navajo Medical Center is an Indian Health Services facility located in Shiprock, New Mexico and serving a population of Native Americans. The medical center has an annual surgical caseload of 1,800-2,000. The surgical specialties include general, dental, OB/GYN, orthopedic, plastics and ENT. This optional rotation is offered to the Georgetown University Nurse Anesthesia student to provide experience in a rural setting. Other unique experiences offered on this rotation are the opportunity to perform a high volume of regional anesthesia, incorporation of cultural factors into patient care, and experience in a clinically autonomous environment.
